New Issues and Varieties

by Andrew Dolphin

2015 Booklet & Definitive Reprints

So far this year we have seen a plethora of reprinted booklets and definitives, all with new Kiwi markings. Here are details of those seen to date:

Booklets

W129b(y) KiwiStamps booklet reprint Q11-Q15 2-Kiwis code NZ4FBKLT

W129b(x) KiwiStamps booklet reprint Q11-Q15 3-Kiwis code NZ4FBKLT

W133a(x) \$12 Lake Rotorua booklet reprint PE60b 3-Kiwis code NZ2D24BK

W134a(y) \$14 Cape Reinga booklet reprint PE63b 2-Kiwis code NZ2H14BK

W146a(z) \$10 Mt Taranaki booklet reprint PE68a 1-Kiwi code NZ4F20BK

W146a(y) \$10 Mt Taranaki booklet reprint PE68a 2-Kiwis code NZ4F20BK

W146a(x) \$10 Mt Taranaki booklet reprint PE68a 3-Kiwis code NZ4F20BK

W147a(z) \$12.50 Pancake Rocks booklet reprint PE69b 1-Kiwi code NZ4F25BK

Definitives

PE28a \$2.00 Tongariro National Park 8-Kiwis

PE51a \$3.00 Tongaporutu Taranaki 4-Kiwis

PE63a \$1.40 Cape Reinga 3-Kiwis

PE66a 60c Franz Josef Glacier 1-Kiwi

PE67a \$1.60 Moeraki Boulders 2-Kiwis

Observant specialized Kiwi definitive reprint collectors will have noticed that there is a printing missing from this list. In the \$1.40 Cape Reinga stamp we have gone from the 1-Kiwi reprint straight to the 3-Kiwis reprint. NZ Post Stamps Whanganui are aware that they have missed this 2-Kiwis reprint and have confirmed to us that it does exist and will indeed be supplied on their next reprint distribution.

NZ Kiwi Kitchen (1 July 2015)

This is an unusual sheetlet of 18 x 80c square stamps from contemporary Christchurch Kiwiana artist Jason Kelly. They were originally painted on wooden panels and the lines from these panels can still be seen on the stamps. The designs themselves are almost cartoonish in nature and produce quirky, kitschy stamps that, in my opinion, overall work together only in sheetlet form but when broken up to be used individually on letters loose their cohesion, with the result that one wonders what on earth this odd stamp is all about. NZ Post have also produced a Kiwi Kitchen tea towel featuring the sheetlet – I'm sorry to say I feel it works better as a tea towel than a set of stamps!

Designs:

Asparagus Rolls – we love 'em, eat your crusts

Kiwi Onion Dip – tasty, go on double dip today

Puha & Pork – traditional Kiwi boil-up

Bluff Oysters – calling your bluff 'oi'ster

Meat Loaf – baked fresh today, perfect for a pot luck tea

Hokey Pokey ice-cream – we all scream for ice-cream

Shrimp Cocktail – with 2 islands dressing, that's North & South

Cheese Rolls – Southland-style, easy peasey cheesy Kiwi

Pikelets – whip up a batch today, stacks on the mill

Lamingtons – lambington, sweet as a little fluffy

Mince on Toast – Dad's Diner, man made in NZ

Whitebait Fritters – classic Kiwi, big dish little fish

Curried Egg – NZ fed on curried egg

Saveloy with tomato sauce – or say cheerio, drown them in it

Bacon and Egg Pie – get in my belly

Pavlova – NZ Pav lover, made here forever

Fairy Bread – of hundreds and thousands sprinkles

Mousetrap – a little cheesy tasty trap.

Designed by Jason Kelly, printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours plus synseal overgloss, on Tullis Russell 104gsm red-phosphor gummed stamp paper, perf 14½, in sheetlets of 18

S1529a-S1546a, SM1529-46

UNESCO World Heritage Sites (5 August 2015)

This issue celebrates New Zealand's three UNESCO World Heritage Sites: Tongariro National Park; South West New Zealand Te Wahipounamu; and New Zealand's Sub-Antarctic Islands. Two locations from each of the three World Heritage Sites have been selected producing a most attractive set of six stamps.

From Tongariro National Park we have an 80c stamp Emerald Lakes, two vivid green and turquoise-green lakes near the Tongariro Crossing, which get their colouring from dissolved minerals from the Red Crater; and a \$2.20 stamp featuring Mt Ngauruhoe, New Zealand's youngest and most active volcano.

From South West New Zealand Te Wahipounamu we have a \$1.40 stamp Franz Josef Glacier, the twelve kilometres long glacier and Lake Mackenzie, a remote picturesque glacier lake on the Routeburn Track on the \$2.50 stamp.

The two Sub-Antarctic Islands selected are Enderby Island for the \$2.00 stamp and Campbell Island for the \$3.00 stamp. Enderby Island is one of the Auckland Islands and is home to many rare species of seabirds, for example, Auckland shags, Auckland teals, Auckland rails and Auckland snipes. Campbell Island is the furthest south of New Zealand's islands and is known for its 'megaherbs', large and brightly colourful wildflowers.

The miniature sheet features the alpine parrot, the kea and is inscribed United Nations Educational, Scientific and Cultural Organization / Patrimonio Mundial, World Heritage, Patrimoine Mondial.

Designed by NZ Post, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours on Tullis Russell 104gsm red-phosphor gummed stamp paper, perf 14½, six stamps in sheets of 25 and a six stamp miniature sheet.

S1547a-S1552a, SM1547-52

New Zealand Parliament Buildings (14 August 2015)

Here we have a single \$2.50 stamp commemorating 150 years of Government in Wellington and featuring an early evening view of Parliament House with the iconic Beehive building. Designed by the British architect Sir Basil Spence, the Beehive was opened 1977 – 1979 and was previously the subject of the \$5.00 definitive stamp from 1981.

Designed by Australia Post Design Studio, Melbourne, Australia and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours on Tullis Russell 104gsm red-phosphor gummed stamp paper, perf 14½ in a sheet of 25.

S1553a

Singapore 2015 World Stamp Exhibition Miniature Sheet (14 August 2015)

New Zealand Post have commemorated Singapore 2015 World Stamp Exhibition, 14 – 19 August 2015 by issuing an Exhibition miniature sheet. This takes the form of a tripartite joint-issue between Australia, Singapore and New Zealand – quite unusual to have three different countries stamps in the one miniature sheet. The Australia stamp is a 70c one featuring Parliament House, Canberra, Australia; the Singapore stamp is a \$1.30 one featuring Singapore's Parliament House; and New Zealand's stamp is the \$2.50 Parliament House Beehive stamp, as described above. The miniature sheet depicts Singapore's famous skyline at sunset, and the FDC shows a nighttime view of skyscrapers (including 'Straits Trading') and Singapore's famous water features and fountain.

This miniature sheet was also available from the NZ Post stand at Singapore 2015 World Stamp Exhibition in a special uncut imperf format. This is considerably larger than the normal miniature sheet and includes colour and shade markings on top and left margins.

We currently hold a limited stock of this imperf miniature sheet, mint and used, for CP Newsletters readers to purchase.

A three stamp miniature sheet incorporating Singapore \$1.30, Australia 70c, New Zealand \$2.50. Stamps designed by Australia Post Design Studio, Melbourne, Australia; miniature sheet designed by Stamps and Collectables Business, NZ Post, Wellington; printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours on Tullis Russell 104gsm red-phosphor gummed stamp paper, perf 14½ in a three stamp miniature sheet.

Christchurch

18 – 20 November 2016

Testimonial

"... the impending Rugby World Cup ... I reckon the Final will be between New Zealand and South Africa!"

JM, Kent, England (29 August 2015)

Eighty-Five Years Ago

From The New Zealand Stamp Collector – October 1930

New Issue: The Charity issue for 1930 appeared on 29 October and was of the same design as the 1929 issue but with the inscription reading “HELP PROMOTE HEALTH.”

Cancellations Are Becoming Popular

The interest that has lately been shown towards postal cancellations is remarkable and it appears that a new branch of stamp collecting may be evolved as a result.

No philatelic handbook is now considered complete unless a section is devoted to the postmarks and the number of articles on postmarks that are appearing in philatelic journals is remarkable. The collector who is prepared to spend a little time in studying and collecting unusual postmarks and obliterations is likely to find his efforts rewarded in the future.

Fifty Years ago

From the CP Newsletter – October 1965 1965 International Cooperation Year by John Robinson

This 4d stamp scheduled for release on 8 September was not available and for the first time in a long while the issue was delayed until later, – 28 September. It appears that the reason for this delay was that stocks were late in arriving from England. The stamp has been printed in two-colour lithography by Thomas De La Rue & Co Ltd.

Inverted Watermarks

N34b(y) This 3d redrawn QE thick white paper is common enough with watermark inverted from booklet panes. Mr J Whincop has kindly shown us a pair with lower selvedge, inv wmk, obviously from a full sheet of 240.

O18b(z) We have seen four copies of the current multicoloured 3/- Pictorial, all used, with watermark inverted. Two have Christchurch postmarks, the other two are from Wellington.

Fifty Years Ago

From the CP NZ Bulletin – October 1965

“New Zealand Stamps” by Campbell Paterson

8d Tuatara 1935 Pictorials. Because of the existence of both upright and sideways watermarks in the various issues of this value, the usual good standby of paper mesh as the most reliable aid to identification is here somewhat discredited. This is because a stamp having vertical mesh paper used sideways will have all the appearance of being on horizontal mesh paper. But in fact, with necessary reservations and changes of the usual routine we can still use mesh as our main guide.

The 8d Tuatara exists with single watermark sideways perf14x13½ L10a and with multiple watermark sideways in perfs 14x13½, 12½ and 14x14½ L10b, d, e. There is also the one issue with multiple watermark upright perf14x13½ L10c. Now remembering that a vertical mesh paper used sideways has the mesh running horizontally across the stamp and vice versa, we should ignore the ‘odd man out’ L10c and treat all these stamps as having sideways watermarks. Treated thus we can take all stamps with apparently vertical mesh and safely reckon these to have horizontal mesh. That done we will find that these stamps are either perf 14x13½ L10b, 12½ L10d or 14x14½ L10e. As L10e was always on the coarse wartime paper it is easily recognized without a perf gauge. The same applies to the 12½ perfs of L10d which are large and readily distinguishable from the neat perfs of L10b.

We have now left only the stamps having apparently horizontal mesh. Using the watermark detector or black tray used with “white spirit”, we can easily see that some of these stamps have sideways wmk and some have upright wmk. The upright wmk stamps are obviously all L10c, this being the only 8d issued that way, and the remainder will be all L10a the issue with sideways single watermark.

If this sounds all too easy that is because in fact it is easy! To the collector who can recognize the mesh of papers the identification of nearly all NZ stamps becomes a pleasure, not a trying bore.

Testimonial

“Just to let you know, I received my CP Catalogue in the mail today. Excellent packaging job! All is safe and sound. Thank you for an excellent product and great service! I will sign up for the annual supplements.”

BR, California, USA (August 2015)
