# **CALs Corner Part 57**

by Andrew Dolphin

## **2015 Wellington / China Sister City Booklet 80c**

June 2015 saw an updated \$8.00 version of this booklet released by 'Absolutely Positively' Wellington City Council containing ten 80c CALs depicting views or scenes of Wellington and Beijing, Xiamen, Tianjin and Zhejiang.

## **2015 "BELMONT" update**

In CALs Corner 56 in September 2015 CP Newsletter I detailed the release of this CAL and requested to be sent further information about it. Rather than anything to do with the Auckland suburb of Belmont on the North Shore, this is actually a farm and homestead in Waverley, South Taranaki. The farm was bought in 1873 by the Walkington family and the house was built about 1881. The image used is from about 1900. The CALs were intended to be used as postage by the four brothers of Belmont and their families.

## **2015 Southland Girls' High School**

An 80c self-adhesive CAL was released July 2015 celebrating 136 years of this South Island High School, with the logo SGHS and, something a little different, depicting a pair of red school-shoes – obviously a distinctive part of their school-uniform.

## **2015 Christchurch Airport**

A \$2.00 CAL has been issued in July 2015 by Christchurch Airport [christchurchairport.co.nz](http://christchurchairport.co.nz), with the message: "Land & see New Zealand's South Island". I enjoy a clever pun, so well done to someone at Christchurch Airport.

## **2015 Ernst & Young**

Another in the annual series of Ernst & Young CALs for the 2015 EY Entrepreneur of the Year Award, an 80c self-adhesive CAL issued July 2015.

## **2015 Pluto**

Now we have a mystery! Here is an 80c self-adhesive CAL released July 2015 depicting a fine, detailed photograph of the dwarf planet Pluto. Fascinating. I wonder why? If any CALs specialist 'out there' knows do please tell.

## **2015 Mahana School**

Mahana School is in Upper Moutere, Nelson, Tasman and this August 2015 80c self-adhesive CAL shows a painting by a talented young artist at the school, depicting mountains in sunshine above forests, river and trees, and 'established 1915', so this CAL is celebrating their Centenary 1915-2015.

# **1903 4d Lake Taupo Inverted Centre Discovery Copy Announcement**

A most interesting article appeared 85 years ago in the March 1931 'New Zealand Stamp Collector' by Ray Collins, entitled "A Remarkable Discovery". The article relates the finding in 1930 in London by schoolboy Jack Dennett of a copy of the 4d Pictorial deep blue and chestnut, on paper watermarked NZ and star and perf 14, with the centre inverted. The copy is postmarked Picton 21 March 1904 and as has been suggested it is quite conceivable that the postmark may have been responsible for this particular copy not having been noticed before.

The stamp has been submitted to the RPSL Expert Committee, where it was closely examined by Sir John Wilson, Sir Edward Bacon and other eminent philatelists 1930-31, who have issued a Certificate, stating "Having regard to the lapse of time (27 years) since this stamp was issued, the Committee hesitate to express a decided opinion upon one specimen, but after examination they believe it to be genuine."

The 4d was printed in sheets containing 80 stamps and it would be interesting to know what happened to the remaining 79 copies. It is of course quite possible that other specimens may be lying in collections unrecognized but on the other hand it is equally possible that only one copy is now in existence. From our experience we should say that at least 79 out of every 80 of our stamps are destroyed.

Ray goes on to say that the new find has been entrusted to Messrs Plumridge & Co for sale and that a British magazine "Stamp Collector Fortnightly" is engaged in the highly unusual occurrence of running a competition on the question of its value. It will be interesting to see how opinions vary as to the value of a variety of this description and what price the stamp actually will fetch. [In actual fact it sold for £61 to the Marquis de Rosny, France, which, even allowing for 1930s monetary values, must have seemed to be quite a bargain. It now has a CP Catalogue value of \$200,000, is owned by New Zealand Post Ltd, and resides at Te Papa, Wellington.]

## Fifty Years Ago

### From CP's New Zealand Bulletin - March, 1966

3/- Mount Egmont 1935/1947 by Campbell Paterson

Assuming, as usual, that we have before us a large pile of unsorted 3/- Mt. Egmonts, we first select out all stamps with Single watermark. This can be done by use of a watermark detector, but is much better done by using the mesh of the paper. As always, the Single watermark stamps have a vertical mesh while all the Multiple watermark stamps have a horizontal mesh.

So – taking the "Singles" first, we find that some have the odd perf. 13-14x13½ - i.e. the top and bottom perfs. gauge partly 13 and partly 14. These stamps are all L14a. All the rest of the "Singles" will be found to gauge an even 13½ along the top and bottom perfs. Most (L14b) have normal watermark, but a few might be found to have the watermark "inverted and reversed". These latter are the rare experimental issue (L14c) where the paper was deliberately used in damp condition and the printing done on the back of the paper. The stamps with normal Single watermark, perf. 13½ x14 (L14b), are also the

result of experimentation with damped paper. Of L14c only 50 sheets ever existed and plate blocks are rare indeed.

Turning now to the “Multiples” we should first eliminate the stamps on the poor quality coarse paper of the war years and after. This paper is readily recognized by its rough texture as seen on the backs of the stamps. We put these coarse paper stamps aside for the moment. Of the Multiples on fine paper we can soon eliminate those perf. 12½ (L14e) both by the size and gauge of the perfs., and by the colour of the frames, which are uniformly of a rich chestnut shade. The remainder on fine paper are all L14d, with the odd perf. 13-14 x13½. Returning now to the coarse paper stamps, earlier put aside, we should use the perf, gauge to distinguish between those with top and bottom perfs. 13¾ (L14f), and those with top and bottom perfs. 14¼ (L14g).

The 3/- stamps, especially the perf. 12½ issue of 1941 and the later L14f and L14g issues, abound in centre plate varieties. Some of these, such as the sky doubling on R3/6, appear first in the perf. 12½ and nearly disappear in the later issues while the most outstanding of all, the big sky re-entry of R9/4, is sometimes present, sometimes not, on both L14f and L14g sheets, never on L14e.

## 1913 AUCKLAND EXHIBITION SUPERB USED

Offered here in the CP Newsletter this month is quite possibly one of the finest used sets of the 1913 Auckland Exhibition stamps extant.

Each stamp is in very fine condition, well-centred, with good colour and pristine light dated genuine postmarks (CDS). This latter is significant because so often these used Auckland Exhibition stamps come with heavy, over-inked Exhibition postmarks.

# ERRORS & VARIETIES

A fascinating selection from this ever popular facet of NZ philately – all new stock offered.

## 1960 Pictorials

- |                |   |            |
|----------------|---|------------|
| <b>149 (a)</b> | O4a(y) 1961 2½d Totoki green missing. This is a vertical pair with the green leaves colour completely omitted on lower stamp and with approx. one third missing on top stamp. Super major error | UHM \$1000 |
|----------------|---|------------|

## 1967 Pictorials

- |                |  |           |
|----------------|--|-----------|
| <b>149 (b)</b> | OD5a 1967 3c Puarangi right selvage strip of three with huge perf shift left with perfs now through I of PUARANGI and N of ZEALAND, excellent item | UHM \$350 |
|----------------|--|-----------|

## 1970 Pictorials

- |                |   |              |
|----------------|---|--------------|
| <b>150 (a)</b> | P6c 1973 4c Puriri moth booklet pane W10b(w) with prominent perf shift down into stamps, and thus producing lower stamps imperf at base | UH/LHM \$300 |
| <b>(b)</b>     | P8b 1973 6c Sea-horses single with good black perf shift down and to the right. Excellent   | UHM \$100    |
| <b>(c)</b>     | P10a 1970 7½c Garfish single with major brown shift up into the top margin. This is not a common stamp for perfs: GOOD!                 | UHM \$250    |
| <b>(d)</b>     | P11b 1974 8c John Dory left selvage block of six with black shift up – top of N of New just into top margin                             | UH/LHM \$175 |
| <b>(e)</b>     | P31a 1977 7c overprint strip of nine with good overprint shift to right progressively so over the strip                                 | UHM \$225    |

## 1975 Pictorials

- |                |  |           |
|----------------|--|-----------|
| <b>150 (f)</b> | PA7b(x) 1976 7c rose top left corner selvage block of four with grossly misplaced perfs. Fine (Cat. \$450)   | UHM \$400 |
| <b>(g)</b>     | PA8a 1975 8c rose left selvage transitional strip of five in an amazing bright lemon yellow shade at left, moving to bistre-yellow at right. Most unusual (+normal for comparison) | UHM \$500 |
| <b>(h)</b>     | PA10b 1979 10c Queen block of four with startling magenta facial colour shift to right   | UHM \$400 |
| <b>(i)</b>     | PA10b 1979 10c Queen pair with small but noticeable orange (facial skintones and dress) shift to right; makes for a nice contrast to previous lot                                  | UHM \$100 |
| <b>(j)</b>     | PA10b 1979 10c Queen top selvage block of ten with blue colour printing anomaly rows three, four and five, now irregular and 'fuzzy'. Unusual                                      | UHM \$250 |

## Errors & Varieties (cont.)

### 1994-95 A to B self-adhesives

- 150 (k)** PC28a(ii)(z) 1994 45c A to B Leigh-Mardon print on Air Ambulance backingpaper, two strips of four: jointstrip and 'Customer Inquiries'/'Direct Marketing Centre' jointstrip (section five of the roll) tete-beche strips. Absolutely genuine selfadhesive modern error variety, together with copy of a letter of authenticity ("assembled upside down") from New Zealand Post, dated 8 October 1994. AMAZING!
- UHM \$500

### Commemoratives

- 150 (l)** S91a 1963 Railways 1/9d single with good solid bright carmine vertical doctor-blade flaw through diesel locomotive
- UHM \$250
- (m)** S215-7 1977 Three cities left selvedge strip of three with part second perf strike through left selvedge and into stamp under NEW, nice item
- UHM \$150
- (n)** S215-7 1977 Three cities top left corner selvedge block of twelve with four part extra perf strikes on left, two into selvedge, two just into stamps (better on lowest strip of three)
- UHM \$150
- (o)** S218/9(y) 1977 AA/RACS pair with grey colour on AA stamp major shift up. Usually this band of grey is towards the bottom of the stamp above "10c"; in this error stamp the grey is at top over "NEW ZEALAND". Perversely, although catalogued considerably less than the grey colour omitted, this error is much less seen (+normal for comparison)
- UHM \$500
- (p)** SM220-4 1977 Silver Jubilee miniature sheet with striking comb-perf error. This produces perfs into "SILVER JUBILEE" lower right and wide white margin top right; in addition there is a perf break in left selvedge. First of this type of error we have seen
- UHM \$500
- (q)** S457a 1993 Royal Doulton \$1.80 nice shade of vase (with normal)
- UHM \$20

### Christmas

- 150 (r)** SC7a(z) 1966 Christmas a set of two lower right corner plate 1A traffic-light blocks of 12, the first showing lower row good complete double perfs especially noticeable in lower right corner, the second showing an earlier (or later) version of the double prints with near coincident perf doubling the two
- UHM \$1300
- (s)** SC7a 1966 Christmas complete sheet of 60 , Harrison and Sons Ltd, London imprint plate 1A Value 15s0d, with partial double perfs over much of sheet, mostly coincident [see also lots 165(a) & (b)]
- UHM \$100
- (t)** SC38g 1997 Christmas 40c self-adhesive from booklet huge diecut misperf to left from lower left corner of booklet-pane, now with part of 'instructions' "To remove stamps..." actually on stamp. This has been used on Wellington local cover 22 Sept 1997 and has had part of a torn second stamp (and a minuscule part of third stamp above) added to make it look more like a normal stamp! Unbelievable!
- cover \$750

## Health
