iSite Regional Stamps Booklets (July/August 2016)

Back in April and July 2014 a long series of \$7.00 and \$19.00; and then \$8.00 and \$20.00 booklets were released by New Zealand's official visitor information network, iSite New Zealand, containing RPLs or Regional Postage Labels. These are all listed and detailed in full on Temp. Pages Appendix C1A and C1B.

With the 1 July 2016 postage rates increases these booklets have been reissued with revalued RPLs of \$1.00 and \$2.20, producing \$10.00 and \$22.00 booklets.

As with the previous booklets these are not distributed as usual on the CP New Issue Service. They are available on special request only. If you would like to receive the set of twenty 2016 iSite Regional Stamp booklets please advise us as soon as possible.

"It's a Kiwi Thing" (7 September 2016)

At first glance this sheetlet of 14 x \$1.00 cartoon-style stamps does not impress. However a little study of each kiwiana-themed stamp reveals them to be quite amusing, actually quite well done. As New Zealand Post wryly say on the sheetlet: "Observing Kiwis in their natural habitat is fascinating. We mean the people of course, not the flightless bird. Maybe it's the isolation, or the lifestyle, or maybe it's all the sheep. Whatever it is, the experiences that Kiwis share are unique. They're Kiwi things, in fact."

Designs:

(1) the world-famous bungy-jump, the first bungy-jump "At that moment Trev had a bit of an idea."; (2) New Zealanders' obsession with complicated coffee "I'll have a trim, decaf latte with a twist and a ..."; (3) a not-so-dignified streak through a game of rugby at Eden Park "Breaking the tackle in the big game."; (4) a sandy sandwich at the beach "The traditional Kiwi sand-wich."; (5) a pair of faithful jandals "Gone but not forgotten 2011-2014"; (6) a cheeky Kea, our friendly alpine-parrot from New Zealand's great Southern Alps with an appetite for destruction "A Kea ate my car."; (7) the never-ending quest to spot an elusive kiwi, our beautiful, flightless, nocturnal national bird "Catching a glimpse of our national bird."; (8) the hot-sand dash across a sizzling black-sand beach "A cool splash followed by a hot dash."; (9) a unique blend of water-skiing and trout fishing in Taupo "Water-skiing on Lake Taupo."; (10) a white-knuckle landing into windy Wellington "Another smooth landing in the capital – Welcome to Wellington."; (11) a comical whale-watching experience "At this time of year we'd be lucky to see a whale ..."; (12) a rather unimpressive 'catch' of whitebait "Another successful day's whitebaiting."; (13) a 'fun' game of beach-cricket takes an aggressive turn "Just a friendly game of beach-cricket."; (14) New Zealander's love of piping-hot pies "Always blow on the pie." This last one probably needs some explanation: it was the remark made by police-officer Sgt Guy Baldwin at 3am early one morning in response to a teenage car-driver acting suspiciously, who said he was only going to buy a pie from the local BP garage, "Always blow on the pie, safer communities together." The video has been watched over 175,000 times.

2016 Children's Health: Being Active (7 September 2016)

Along the same lines as last year's Health stamps (Being Sunsmart) the exhortation this year is to Be Active. Thus each of the three stamps covers an aspect of Being Active: \$1.00 aerobic activity, a casual game of touch-rugby; \$1.80 strength building, a classic game of 'tug-of-war'; \$2.20 flexibility, a jump-jam exercise during a PE class.

As well as three sheets of 25, the stamps come as a setenant strip of three with the tug-of-war rope extending into the touch-rugby game stamp to the left and the jump-jam session stamp to the right. And for the first time in 21 years there is no Health self-adhesive stamp (I wonder why?), so the miniature sheet is a simple repeat of the setenant strip, without the previously usual gummed version in the miniature sheet of the self-adhesive stamp from the set, and in a 'normal' shape, not cut-around in butterfly shape or umbrella shape!

As usual 10c from each stamp goes to Stand Children's Services Tu Maia Whanau, better known to philatelists as Children's Health Camps.

Designed by Stephen and Di Fuller, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours on 104gsm red-phosphor gummed stamp-paper, perf 14½, in sheets of 25, a setenant strip of three and miniature sheets.

CALs Corner Part 59

by Andrew Dolphin

2016 Southland Girls' High School

Another annual CAL from SGHS Southland Girls' High School of Tweed Street, Invercargill, this time a \$1.00 self-adhesive CAL released July 2016. The girls seem to have adopted a strawberry as their school-symbol this year, their website pages headers are all decorated by strawberries and they have Strawberry Flags flying at school. The CAL is a symbolic strawberry design, rather well done, unmistakable as to what it is representing.

2016 Christchurch Stamp & Postcard Exhibition, 2nd issue

Two more CALs, this time \$1.00 gummed values, for this Show held in Christchurch. Continuing the theme of the centennial of the founding of the Canterbury Aviation Co, the two CALs were issued 5 July 2016. Designs: 1916 Bristol Fighter F2, two of these fighter-planes were used in New Zealand 1920-1936. These British War surplus aircraft were modified for civilian use as Bristol Tourers. 1917 de Havilland DH9, nine of these airplanes, originally bombers, and again British War surplus, were used here by NZAF, NZ Flying Clubs and small airlines, such as the NZ AeroTransport Co., a predecessor of Mt Cook Airlines.

2016 New Zealand Red Cross, updated

July 2016 saw the rerelease of November's 100 years New Zealand Red Cross CALs booklet, @ \$11.00 with a \$1.00 donation to NZ Red Cross. As before the booklet contains two of five different \$1.00 designs.

2016 Electric Kiwi

A \$1.00 self-adhesive CAL was released July 2016 for this new New Zealand Electric Kiwi electric utility power company, with Head Office Auckland. The CAL depicts the logo of the company an angular bright yellow symbolic kiwi; slogan: "Smaller. Smarter."

A set of two \$1.00 self-adhesive CALs have been issued July 2016, followed by a third \$1.00 gummed CAL in August 2016, for this Transport Museum in Tay Street, Hawthorndale, Invercargill. This features the expansive private collection of automotive, truck and motorbike history formed by the late Bill Richardson (1940-2005). The three CALs depict two different views of a 1940 Texaco Dodge RX70 Truck and a 1946 Bedford OWB/58 bus or coach.

2016 Ernst & Young

Another in the annual series of Ernst & Young CALs for the 2016 EY Entrepreneur of the Year Award, a \$2.20 self-adhesive CAL issued July 2016. 2016's winner of the Award is Peter Beck, founder and CEO of aerospace company Rocket Lab of Auckland, with their launch site at Mahia, near Gisborne.

2016 Hobbiton

An updated postcard rate \$2.20 CAL was issued for Hobbiton Movie Set NZ in July 2016.

2016 Kiwi Stamp Circuit

The latest CAL issue from the long-running series of "Mr Kiwi" CALs from Kiwi Stamp Circuit of Glen Innes, Auckland arrived on 5 August 2016. This is a \$1.00 gummed CAL on the theme of the 2016 Rio Olympic Games. First Day Covers were produced Auckland MSC 5 Aug 2016.

2016 Whittaker's Chocolate

A \$1.00 self-adhesive CAL was issued August 2016 celebrating Whittaker's K Bar chocolates. Pictured is the K Bar Lime Block: milk chocolate with lime flavoured filling. From The New Zealand Stamp Collector – January 1932

New Zealand New Issues by Ray Collins

The latest printing of the 2/- Admiral type has been made in a much deeper colour than formerly. The shade closely resembles the first issue on the Jones paper.

The 3d Government life stamp has now appeared on the Cowan thick chalk-surfaced paper and the colour has been changed to chocolate.

The following additional values have been added to the Arms Type duty set:- 5/- green, 8/- deep blue, 9/- orange, 15/- green and £1 rose. The colour of the 1/3d has been changed from pale yellow to brownish-orange.

The Health charity issue for 1931 consisting of two values 1d+1d carmine and 2d+1d deep blue was placed on sale on 31 October. Both values are of the same type depicting a boy-scout with typical New Zealand scenery in the background. The three Airmail stamps intended for use on correspondence posted from New Zealand to connect with services in Australia, Canada, USA and the Karachi-London service were issued on 10 November. An 18 December special printing of the 3d in yellow-green has been overprinted "FIVE PENCE" for use in connection with Airmail flights to be made on Christmas Eve.

From the CP Newsletter – January 1967

New Zealand Notes and Comment by Warwick Paterson

1967 – what a momentous year this one should be for collectors with Decimal Currency Day a mere six months away. The last of the £sd issues is to be the Post Office Savings Bank Centenary on 3 February. April will bring the International Exhibition at Whakatane and August this year's Health stamps, a sporting theme: Rugby.

The Postal Division, Wellington have stated that there will be no overprinted decimal stamps, the designs will remain the same in the new set.

Fifty Years Ago

From the CP NZ Bulletin – January 1967

1965 Commonwealth Parliamentary Conference set by Peter Collins

This set is under-catalogued! Post Offices sold out of the 2/- top-value of this set on the day of issue and after the first flush of magazine advertisements, the set disappeared from dealers' offers. Our 1967 prices will reflect the scarcity of the issue and we anticipate that other catalogues must also show substantial increases.

Commemoratives

532(a) SM1237-40(z) 2011 Year of the Rabbit Miniature Sheet major perf error.

There was a time in the 'good-old-days' when major errors on New Zealand stamps occurred every month, OK I exaggerate, every other month! Not any more, not for many years.

We are thus thrilled to offer this major perforation error on the 2011 Chinese Lunar New Year 2011 Year of the Rabbit Miniature Sheet.

The 60c rabbit Chinese character is normal; the \$1.20 paper-cut rabbit is imperf at right; the \$1.90 painted rabbit is imperf at sides with a vertical central line of double perfs; and the \$2.40 Christchurch Cathedral is imperf at sides with a vertical central line of perfs. In short an outstanding major modern perf error
