New Issue Notes

Wahine 50 Anniversary (7 March 2018)

When the TEV Wahine departed Lyttelton Harbour bound for Wellington Harbour at 8.40pm on 10 April 1968, there was a total of 734 passengers and crew on board. Tragically Cyclone Giselle combined with a southerly front blown up from Antarctica caused giant swells and gale-force winds and the Wahine capsized with the loss of 53 people.

This is a respectful set of six stamps remembering this tragic event and honouring all those involved.

Designs:

- \$1.00 1968 the Wahine, the world's finest drive-on vessel
- \$1.00 Wahine in trouble in Cook Strait
- \$2.00 Passengers waiting to abandon ship
- \$2.20 Wahine's lifeboats make land
- \$2.70 Hundreds rescued from Wellington Harbour
- \$3.30 Aranui ferry passes the Wahine shipwreck

Designed by Jonathan Gray, New Zealand Post, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours, perf 14½x14, on Tullis Russell 104gsm red-phosphor gummed stamp-paper: six stamps in sheets of 25 and a six-stamp miniature sheet.

World War I New Zealand's Story V 1918 Back from the Brink (4 April 2018)

Here is the fifth and final installment in New Zealand's homage to the Great War. The multiple issue format is unchanged— a set of twenty stamps: a block of six, two setenant pairs and a sheetlet of ten; two miniature sheets, one of six and one of four; and a commemorative prestige booklet containing twelve booklet-panes.

Designs:

- \$1.00 Arthur Gordon (1895-1978), the 20th Reinforcements of the Otago Regiment, the Western Front 1917
- \$1.00 Hundred Days Offensive, July 1918
- \$1.00 Flu Pandemic, shown is an influenza depot in Christchurch
- \$1.00 Demobilisation, a returned soldier and his family, one of the 56,000 returned Kiwi soldiers
- \$1.00 Resettlement, back to civilian life
- \$1.00 Great Air War, a Sopwith Camel biplane with Kiwi pilot of the Royal Flying Corps
- \$2.20 Armistice, shown is Auckland Town Hall spotlight at night for the 28 June 1919 Peace Festival celebrations

World War I New Zealand's Story V 1918 Back from the Brink (4 April 2018) (cont.)

- \$2.20 Return of the Pioneer Battalion, Maori Battalions marching up Queen Street, Auckland, 6 April 1919
- \$2.70 Le Quesnoy, a stained-glass window from St Andrews Anglican Church, Cambridge 1923, showing New Zealand soldiers scaling the walls of fortress town Le Quesnoy, 4 November 1918, one week before the Armistice
- \$2.70 Rehabilitation, Badge of the New Zealand War Amputees' Association

The three First Day Covers depict two Le Quesnoy scenes: an aerial view of the fortifications, and NZ soldiers on parade in the town November 1918; and a map showing the Order of Battle on the Western Front, 11.00am, 11 November 1918.

Designed by Nicky Dyer, Strategy Creative, Wellington, printed by Southern Colour Print Ltd, Dunedin by offset lithography in five colours: the four process colours plus silver on Tullis Russell 104gsm red-phosphor gummed stamp-paper, perf 14½, sheets (3) of 24, sheetlet of ten, two miniature sheets, plus commemorative prestige booklet, containing 12 x booklet-panes.

New Discoveries

(1) Dr Andrew Murley of Auckland recently showed us a most interesting **Second Sideface 2½d used advert pair**. This was from the Top Left Pane positions 52 & 53 : 'Sunlight Unequaled for Hounds' & 'Poneke', 3rd setting in mauve. But it was the perforations of the pair that were fascinating – it was indubitably perf 12½x10. This was checked and doubled-checked: yes, p.12½x10. So, what was its CP Cat. listing? It was not DA4c p.12x11½. It was not any listed variation of DA4e p.10. Rather it had to be an entirely new CP Cat. listing; thus:

DA4f 10x12½ 3rd setting in mauve..... - -
(z) Perf 12½x10..... - *

An excellent new discovery.

(2) Shown to us recently was a **1935 Pictorials 5d Swordfish double print, one albino**.

At first sight we took this to be the most regularly seen example of this variety: L8f(5)(x).

However on closer examination we began to have our doubts.

First of all, it was not the striking Cobalt blue shade of this printing, rather it was the more usual Ultramarine. Second, the paper looked wrong: rather than the coarse texture, rough paper of the final 1942 issue, this stamp was on fine esparto smooth and dense paper of the earlier 1936 printings. But the clincher were the perforations – rather than perf 13¾x13½, the perfs on this stamp were perf 13-14x13½.

Which means the stamp was variety L8c(y). But, hang on, this CP Cat listing is a “dash” mint, which means: ‘does not exist mint’. Well, now it does!

New Discoveries (cont.)

The stamp was sent for RPSNZ Expert Committee Certificate and came back with a clean full Certificate. L8c(y) will be priced in the next CP Cat. revision at \$6000.

(3) Also shown to us recently were two used **King George V Surface watermark varieties**.

The first was the 1½d orange-brown De La Rue W.7d reversed watermark: this is K17b(x) and we will thus be replacing the asterisk with a Cat. value, viz \$800.

The second was the 2d yellow De La Rue W.7e inverted and reversed watermark, which has the paper surfaced on the wrong side. This is K18a(x) and we will thus once again be replacing the asterisk with Cat. value of \$800.

(4) From Mr John Geary of Dunedin come two stamps. One a confirmation of a previously reported error; one a new listing:

First we have L4e(z) 1935 Pictorials 2d Whare perf 12½ inverted watermark fine used. This stamp has been previously reported used (it is not known to exist mint) but must be rare in used condition – it is currently with asterisk, it will be replaced by a Catalogue valuation the next time Section L is revised.

The second stamp is more modern: PA10a(y) 1977 10c Queen Elizabeth II double impression of the blue frame, used. The lettering is very narrow, due to the doubling of the blue. John's stamp is commercially used on piece. It has not been recorded used before, only mint, thus the current used dash will be replaced for Section PA revision.

(5) Finally from Mr Gordon Roper of Hamilton comes the 1968 2½c Health miniature sheet mint TM40a, with a good yellow colour shift downwards. This makes a big difference to the design: on the four selvages the yellow Olympic ring is now out of position; and on the six stamps the yellow Olympic ring now becomes a white ring and the yellow component of the skintone of the athlete has moved.

OCTOBER OFFERS

Full Face Queens

- 242(a) A4b(1) (SG120) 1865-72 4d Pale yellow Large star wmk perf 12½, a lovely mint Chalon Head in a delicate pale shade with good even perfs, with gum (Cat. \$600).....LHM \$500
- (b) A5c(3) (SG77) 1862-4 6d Deep red-brown Large star wmk perf 13, spectacular horizontal misperf with SIX PENCE now at top of stamp! This has been caused by the Dunedin Postmaster's contractor's method of perforating several sheets at the same time, usually producing somewhat off-centre stamps (indeed perf 13 well-centred Chalon Heads are scarce premium items). This copy has taken the perforating to the other extreme!....good Used \$300
